

Installing Bowland High's certificate on an iPad

1. Navigate to Safari and then go to the Moodle page that contains the three certificates. Click on the first certificate and then click "Allow" then "Close" as shown below.

2. Navigate to settings and click "Profile Downloaded". Then the certificated should pop up automatically. Click "install", then "install" again, then "done" as shown below. Repeat for all 3 certificates.

3. Finally, navigate to setting > General > About > Certificate Trust Settings. Make sure all 3 certificates are turned on.
